1. Introduction
Radio can be interpreted as a whole system of sound waves emitted from a station and can be received by planes at home, in cars, on ships, and so on (Pinontoan, 2024); (Morissan, 2018). In addition, radio is one form of mass media that is widely used by the public to access information (Maharani, Lestaluhu, & Alfredo, 2022). Radio is one type of one-way mass media whose role is to convey messages (news, information, and entertainment) to the public with a wide reach (Kustiawan, Sawitri, Alfina, Andrehadi, & Afranyah, 2022). Radio has undergone a long development process before becoming the mass communication medium it is today (Zid’i Ramadhan, 2020). Thanks to the perseverance of three scholars, including a natural science theorist named James Maxwell managed to find a formula that allegedly can realize electromagnetic waves, namely waves used for radio and television waves (1865) (Efendi, Batubara, & Hamzah, 2023). This research was carried out to know what are the da’wah strategies used by KH. Abdul Rasyid Abdullah Syafi’ie on Radio Alaikassalam.

Da’wah is essentially an attempt to influence someone to act and behave (Nurfaizah, 2021). Through both, it is expected to change personalities both individually and 8 people through certain strategies (Acep Aripudin, 2007); (Saputra, 2011). In da’wah many methods can be chosen, because da’wah does not only take place on the pulpit, meaning that the da’i lectures in front of the audience while the audience only listens, but many ways can be taken including through the media, namely through a work (Ramdhani, 2018); (A. Ilyas Ismail, 2018); (Ilyas Ismail & Hotman, 2013).

Discussion

The da'wah method is applied by KH. Abdul Rashid Abdullah Shafi‘ie, using the method of wisdom, and in a polite manner. The goal, so that what is conveyed can be well received. However, if this strategy cannot be implemented, then debating it properly is the way to go. Of course, this strategy is very much following God’s Word, but again, how the implementation of this word debate, raises many perceptions and opinions in it. How do we view it as humans, even more so as preachers in understanding the concept of debating in a good way? If viewed through the perspective of the da'wah strategy according to Al-Bayani above, then this strategy is inclined to the sentimental da'wah strategy (Al-Manhaj al-this) because KH. Abdul Rasyid tried to move Mad'u’s heart by inserting a message of da'wah between the songs played on Alaikassalam radio Jakarta, in the hope of being able to stir the hearts of his listeners to draw closer to Allah. Of course, this strategy is very powerful, but it must be done carefully. This is so that unwanted things can be avoided and we can preach well. In addition, KH. Abdul Rsyid Abdullah Syafi‘ie also had another strategy, namely preaching with noble morals. By the word of God:

وَأَنَّكَ لَعَلَىٰ خُلُقٍ عَظِيمٍ

Meaning: And verily ye are truly of great ethics.

This word of Allah is also reinforced by the hadith of the prophet SAW which means: From Anas (r) said the Prophet SAW said that the best man is moral. (Muttafaq ‘Alaih). The strategy used by KH. Abdul Rashid Abdullah Shafi‘ie, of course, is very very good, because in addition to being an implementation of the word of Allah, but also reflects as a good preacher. In addition, his da'wah strategy through Radio, especially through RAS FM, is very capable of penetrating all levels of society, both from the lower middle class to the upper middle class (Fathoni, 2017). In addition, the da'wah strategy of KH. Abdul Rasyid Abdullah Syafi‘ie, through Radio Alaikassalam Jakarta, can touch the heartstrings of his listeners, through a program broadcast on this radio, then live broadcast of Salim assembly activities that are carried out faithfully This is certainly very effective, considering that currently Islamic da'wah can be said to be very monitored by several parties (Fathoni, 2017). In addition, the existence that can be maintained by Radio Alaikassalam Jakarta is one of the added values possessed by this radio (Raihan, 2019).
4. Conclusion

From the explanation above, it can be concluded that the da’wah strategy of KH. Abdul Rasyid Abdullah Syafi’ie on Radio Alaikassalam Jakarta is da’wah by presenting Islamic nuanced programs by not forgetting updated information for listeners. Such as the shubuh package event which contains tausiyah, Salam Pagi, and Salam Sore which contains updated information for listeners, to the Zona 1215 event where listeners can request their favorite songs to be played on Radio Alaikassalam Jakarta. He also broadcasts the activities of the Ta’lim Council held at Al-Barkah As-Syafi’iyah Mosque, Tebet, South Jakarta every Thursday and Sunday morning. This is so that people can take part in ta’lim assembly activities anywhere without having to come to Al-Barkah Mosque directly. Through this research, the author would like to convey suggestions that may be useful for Radio Alaikassalam Jakarta, its listeners, and readers, namely that the strategy of da’wah through Radio should continue to be further developed. This is so that radio can maintain its existence in the era of growing technology like today, should whatever has been done by KH. Abdul Rasyid Abdullah Syafi’ie's preaching can be used as a good way for the next generation so that his da’wah does not stop even though he has died, Radio Alaikassalam Jakarta should be able to develop the quality of its broadcasts so that the people of Jakarta as a whole can listen to the message of da’wah delivered clearly and clearly, It is hoped that all dear readers, to always emulate the teachings that have been conveyed by KH. Abdul Rashid Abdullah Syafi’ie, As explained regarding the strategy of da’wah KH. Abdul Rasyid Abdullah Syafi’ie in this journal, the author argues that the da’wah strategy of KH. Abdul Rashid Abdullah Syafi’ie can be one of the good da’wah strategies to be carried out by the preachers.
